## Business Outreach

---

The Office of the Secretary of Commerce and Trade has the ability through the Virginia Economic Development Partnership and the Department of Business Assistance to communicate with business leadership and allies related to information of importance to businesses in the Commonwealth. In relation to health reform policy, many businesses and business organizations have held seminars and webinars – in addition to written and electronic communication – about the impact of the federal health care reform on their business and or membership. As this will impact many businesses and individuals in different ways – this may be the most efficient and tailored way for dissemination of information.
